New  
SA laws begin  
**1 July 2018**

## New laws require dogs and cats to be **microchipped and desexed**

Dogs and cats that have been desexed are less likely to wander and less prone to diseases. Microchipping quickly reunites lost pets with their owners.

- All dogs and cats over 12 weeks of age must be microchipped by **1 July 2018** and the details must be entered on the statewide register, **Dogs and Cats Online**
- Dogs and cats born after **1 July 2018** must be desexed by 6 months of age (exemptions apply)

The new cat and dog laws summarised

As of	New law	Benefit
1 July 2017	Increased fines and penalties for irresponsible dog and cat owners	To ensure financial penalties act as genuine deterrents to those who flout the law
1 August 2017	New mandatory minimum standards and advisory guidelines for breeders and sellers of companion animals	To ensure higher standards of care for companion animals are met at breeding facilities and shops and other sources of pets
1 July 2018	All dogs and cats must be microchipped by 3 months	To increase the number of lost dogs and cats returned to their owners
1 July 2018	All dogs and cats born after this date must be desexed with exemptions for working dogs and registered breeders	To reduce the number of unwanted animals ending up in shelters
1 July 2018	Anyone who breeds dogs or cats for sale must register with the Dog and Cat Management Board	To better manage this industry and make it harder for puppy farmers to ply their unregulated trade
1 July 2018	The Dogs and Cats Online website will be launched to manage dog, cat and breeder registration across South Australia	To save councils time and money, and assist owners to better manage their pets

## Thinking of getting a dog?

Before you start thinking about the type of dog you want, consider whether a dog will fit with your lifestyle.

### Research

Understand the different dog breeds and their health, grooming and exercise requirements

### Time

Will you have enough time to socialise, walk, play, train, feed and groom your dog?

### Environment

Is your living arrangement suitable for safely keeping a dog?

### Cost

Understand the ongoing cost of keeping a dog throughout its lifetime

### Household

Consider the impact on other family members, such as children and pets

### Lifetime commitment

Are you able to make a lifetime commitment?
